EXPERIENCE POWERFUL HEALTH BENEFITS TODAY!

As we age, our stem cells decline in their ability to heal our bodies. X39[®] is clinically proven to provide the body with a level of health and vitality that you have not experienced since you were in your youth.

The secret? By harnessing the power of patented phototherapy with advanced non-transdermal patch technology, X39[®] uses the light emitted from your body and reflects it back through your skin to signal the body to elevate a copper peptide, GHK-Cu, proven to activate stem cells. **X39[®] resets your stem cells to a younger, healthier state!**

It may sound like science fiction, yet it's science fact! Backed by over 80 clinical studies and 20 years of development - X39[®] photobiomodulation patch technology - has been demonstrated to provide an abundance of health benefits.

X39[®] users are experiencing dramatic health results; rapid pain relief, better sleep, improved energy and vitality, improved skin appearance, improved hair quality, reduced inflammation, rapid wound healing, improved mental clarity, enhanced sports performance, faster recovery from exercise, and relief from other health and age-related issues.

How long does it take to experience health benefits with X39[®]? As you know, we all are different. In fact, there are hundreds of millions of genetic differences that make you - uniquely you!

- **Within a 24 Hour X39[®] Experience**, many users experience noticeable health benefits associated with stem cell activation - benefits they can feel!
- **Others need a longer period of time.** With an Extended 30 Day X39[®] Experience, everyone will have the opportunity to experience powerful health benefits using this amazing technology.
- **During a 24 Hour Experience**, you'll see how easy the X39[®] non-transdermal patch technology is to apply, wear and remove - 12 hours on, 12 hours off. It's super-thin, very comfortable to wear, you won't even know you have it on, and it even stays on during a shower or a swim!
